DIABETIC FOOT CARE

(*MONDAY – THURSDAY ONLY)

75 min \$55 **NOW \$48**

We created a new service with diabetic clients in mind but also great for people with low immune system. The protocol is also recommended by Podiatrist. We start with dry filing of the feet however we will be very gentle with cracked skin on the heels on the feet. Next step is application of callus eliminator when it's needed. 10 min later we will continue filing stubborn calluses. When you and your technician are happy with the results keratin or collagen warm socks will be placed on your feet. When your feet absorb the nutrients, the technician will work on your cuticles and toe nails to make them perfect. Application of Dazzle Dry harmful chemical free polish will end the treatment. You can leave the place in 8 min with dry toes without application of UV lights- additional health benefits.
